Career Objective

Enthusiastic and detail-oriented developer with a strong foundation in MERN stack development. Passionate about building scalable web applications, solving complex problems, and contributing to innovative projects.

Technical Skills

- Frontend: React.js, HTML, CSS, JavaScript, Bootstrap, Tailwind CSS
- Backend: Node.js, Express.js, REST APIs
- Database: MongoDB, Mongoose
- Other Tools: Git, Postman, Deployment (Netlify, Vercel, Render, etc.)

Projects

Course Enrollment System | MERN Stack

- Developed and deployed a full-stack course enrollment website using MongoDB, Express.js, React, and Node.js.
- Built course management features (create, update, delete, browse, and search courses) with form validation and responsive UI.
- Designed and integrated student enrollment functionality with MongoDB relationships for tracking enrolled courses.
- Frontend Deployed on netlify, Backend Deployed on render, ensuring scalability and accessibility.

Education

🎓 Bachelor of Technology (B.Tech) – Computer science and engineering
Pydah college of engineering, 2026

Strengths

- ✓ Problem-solving and logical thinking
- ✓ Team collaboration and adaptability
- ✓ Quick learner with a passion for full-stack development
